### ABOUT

Advanced Pain Management is a health care practice designed for patients looking for a modern approach to pain management. They provide a number of minimally invasive, nonsurgical treatments to help reduce chronic pain in patients.

The practice offers a wide range of nonsurgical procedures and minimally invasive treatments, including: percutaneous endoscopic laser discectomy (LASE) treatments, platelet-rich plasma (PRP) therapy, myofascial trigger point injections, epidural injections, celiac plexus blocks, and implantable therapies to control pain.
