ABOUT

With over 22 years of experience in Santa Clarita, and as a third generation chiropractor, Dr. Unruh specializes in Brain and Spinal Traumatologie, and Biomechanics. Therefore, he specializes in injuries related to the neck and spinal cord. Giving him an in depth understanding of the complexities of how these injuries affect the body's functions and movement.

Dr. Unruh views the body as a unified system, where each part is interconnected and influences the others. Instead of just focusing on symptoms in isolation, his approach considers how various factors, such as lifestyle, diet, stress, and environment, impact a person's overall health and well-being. He aims to address the root causes of health issues, rather than simply treating the symptoms. He also understands how misalignments or dysfunctions in one area of the body can affect other areas, leading to a holistic treatment plan such as:

- Chiropractic
- Acupuncture
- Physical Therapy
- Supplemental support
- Spinal Decompression: cervical or lumbar
- Class IV High Power Laser
- Pulse Electro-Magnetic Field Therapy
- Mechanical Traction
