California Case Management Experts (CCME) is our preferred multi-specialty provider with locations in Los Angeles and Anaheim. Their team of board-certified physicians offers comprehensive, high-quality medical care.

At CCME, their mission is to take the logistical hassle out of managing a personal injury or worker's compensation case.

For medical providers, they handle billing, scheduling and other case-critical needs.

For attorneys, they compile bills and records needed to ensure the case moves forward.

For patients, they ensure continuous care by becoming a single point of contact, eliminating overlap.

Dr. Anthony Francisco
