Under the medical directorship of Dr. Petros, Allied Pain & Spine Institute has gained a proven track record in the proficient diagnosis and tailored treatment of problems associated with the spine and the entire musculoskeletal system.

At Allied Pain & Spine Institute, we are a multidisciplinary medical practice that delivers the most cutting-edge and evidence-based pain solutions available today.

We provide comprehensive consultation and multi-faceted care for acute and chronic pain conditions arising from virtually any part of the human physical body.

We offer compassionate and experienced management for a wide range of injuries including spinal, orthopedic, degenerative, industrial, repetitive strain, sport, and automobile/whiplash.

We employ electromyography and nerve conduction studies (EMG/NCS), medication optimization, customized rehabilitation, spinal diagnostic and therapeutic interventional procedures, and various peripheral injections (for joint, nerve, and soft tissue) to achieve superior patient outcomes.

Emphasis is always on improving quality of life.
